Overview of the Coalfields Regeneration Trust’s Strategic Themes

Your project should predominantly focus on one or more of our three themes, as detailed below.

**Skills** – Providing appropriate training, non-vocational or vocational, to enable people to increase their skills and knowledge. The training should provide progression routes to volunteering, further training and/or employment opportunities. Improving levels of literacy/numeracy, English not as a First Language, IT or coaching in order to provide a service, are all examples of the types of project we would look to fund.

**Employment** – Providing a range of skills and experience to help people to create pathways into employment and accessing job opportunities. This could be job creation, work placements or job clubs which assist with job searches and applications, CV development and interview skills.

**Health & Wellbeing** – Supporting projects that increase participation in activities/services that improve the health and quality of life of people in former coalfield communities. This could include projects that address food poverty, debt advice, mental health issues, substance misuse, social isolation or projects increasing participation in physical activity.

Please read these notes and the list of outcomes and keep them to hand before accessing the online Eligibility Survey, to ensure you can answer all the questions in the survey.

A list of eligible coalfield wards can be found via the Trust’s website at Coalfields Community Investment Programme. These are on a regional basis: North East, North West, East Midlands, West Midlands and Yorkshire.

In the event you do not know which ward your project will be delivered in, you can find this information by entering your postcode at MapIt and checking the Ward box. Some examples of how this may be defined are Metropolitan District Ward, Unitary Authority Electoral Division, Unitary Authority Ward and District Council Ward.
